

CLAIMS

1. A computer-implemented poetry screen saver, comprising:
loading an author analysis model;
randomly selecting a seed word from the author analysis
model;
completing a poem following the seed word; and
displaying the poem on an output device.
2. The computer-implemented poet screen saver of claim 1
wherein the output device is a display device.
3. An automatic composition system comprising:
a central processing unit;
a random access memory;
a display unit; and
means for automatically composing text that appears on the
display unit during a screen saver mode.
4. The system of claim 3 wherein the text is poetry.
